

SailBrain.

The genius of the boat.

The most evolved portable GPS instrument with advanced sailing tactic functions.

SailBrain is the first and unique portable GPS instrument with an analysis software data view "from the America's Cup" and with a simple and immediate interface, easily usable by anyone.

SailBrain processes and show in real time all informations of the race course, allowing you to set an unassailable tactic.

In just a few months SailBrain found spread across many race fields, national and international, contributing to the best results on different types of boats.

A true genius!
